WHEREAS, in *National Wildlife Federation and Public Employees for Environmental Responsibility v. Federal Emergency Management Agency, et al.*, 345 F. Supp. 2d 1151 (2004), the United States District Court for the Western District of Washington ruled that the Federal Emergency Management Agency ("FEMA") must undergo formal consultation under Section 7 of the Endangered Species Act ("ESA") because the implementation of the National Flood Insurance Program ("NFIP") may affect listed species found in the Puget Sound Region; and

WHEREAS, as a result of the consultation, National Marine Fisheries Service ("NMFS") issued a Biological Opinion on September 22, 2008, that documented the adverse effects of FEMA's NFIP on listed species found in the Puget Sound Region, which includes Puget Sound Chinook Salmon, Puget Sound Steelhead and Southern Resident Killer Whales; and

WHEREAS, cities that participate in the NFIP must demonstrate compliance with the Biological Opinion by choosing one of three options provided by FEMA: Option #1 - adopt the FEMA-developed ESA compliant model ordinance; Option #2 - meet FEMA checklist for ESA compliance with current regulations; or Option #3 - permit by permit demonstration of ESA compliance; and

WHEREAS, the City originally pursued review by FEMA for Option #2 but that option could not become effective until the City completes the update of its Shoreline Master Program, so the City adopted Option #3 on an interim basis under Ordinance No. 1223, as extended by Ordinance No. 1234, then on September 24, 2012 re-adopted the provisions on an interim basis under Ordinance No. 1248 for a period of six months, which may be further extended by separate ordinance until this Ordinance goes into effect; and

WHEREAS, permanent adoption of Option #3 would require the City to maintain documentation from the applicant obtained from a habitat assessment or Section 7 consultation with NMFS, that demonstrates compliance with the ESA. This

documentation would be maintained by the City with the applicable permit file and available for FEMA review upon request; and

WHEREAS, pursuant to RCW 36.70A.106(3), the proposed regulations were forwarded to the Department of Commerce on September 17, 2012 and review was granted on September 18, 2012; and

WHEREAS, the City's SEPA Responsible Official issued a determination of non-significance for this ordinance on February 13, 2013; and

WHEREAS, on February 25, 2013, the Gig Harbor City Council held a public hearing and first reading of this ordinance; and

WHEREAS, on February 27, 2013, the Washington State Department of Ecology provided comment on this ordinance, requesting the City to submit the ordinance to the Department of Ecology for final approval in accordance with RCW 86.16.041; and

WHEREAS, the Gig Harbor City Council has determined that adoption of Option #3 is in the best interests of the public health, safety and welfare;

WHEREAS, the Gig Harbor City Council has expressed its continuing interest in pursuing Option #2 at such point that the city's Shoreline Master Program is approved by the Department of Ecology and becomes effective; and

WHEREAS, the Planning Director will reexamine the city's potential for utilizing the Option #2 approach once the Department of Ecology approves the City's Shoreline Master Program and it becomes effective;
