nation of the project. This para-
graph does not remove any re-
sponsibility from the property own-
er in regard to proper notifications
prior to construction.

2. The contractor shall not op-
erate any gate valves or make
any connections to the existing
water main without making the
necessesary arrangements with the
Water Superintendent a reasonable
time in advance. Work shall not
be started until all of the materi-
als, equipment and labor necessary
to properly complete the work are
assembled on the site. When work
is once started on this connection,
it shall proceed continuously with-
out interruption and as rapidly as
possible until completed.

3. All new pipelines constructed
shall have a minimum of 3 feet
cover, measured from top of pipe
to approved road grade.

4. All fittings are to be blocked
with poured concrete, Mix 1-2-4,
against undisturbed soil with suffi-
cient concrete and $\frac{1}{4}$ " anchor
rods, if required, to resist the re-
sultant forces.
