Proposed Amendment  
to the  
Pierce County Countywide Planning  
to  
Incorporate New Candidate Regional Centers

Pierce County Countywide Planning Policies. The “clean” language below assumes the proposed VISION 2040 Consistency amendments are ratified.

## **Centers**

Centers are to be areas of concentrated employment and/or housing within UGAs which serve as the hubs of transit and transportation systems. Centers and connecting corridors are integral to creating compact urban development that conserves resources and creates additional transportation, housing, and shopping choices. Centers are an important part of the regional strategy (VISION 2040) for urban growth and are required to be addressed in the Countywide Planning Policies. Centers will become focal points for growth within the county's UGA and will be areas where public investment is directed.

Centers are to:

- be priority locations for accommodating growth;
- strengthen existing development patterns;
- promote housing opportunities close to employment;
- support development of an extensive multimodal transportation system which reduces dependency on automobiles;
- reduce congestion and improve air quality; and
- maximize the benefit of public investment in infrastructure and services.

VISION 2040, the adopted regional growth strategy, identifies several centers as an integral feature for accommodating residential and employment growth. The strategy describes Regional Growth Centers, and other centers that may be designated through countywide processes or locally. Regional Growth Centers once regionally designated are located either in Metropolitan Cities, or in Core Cities. VISION 2040 also identifies Manufacturing/Industrial Centers, which consist primarily of manufacturing and industrial uses. Pierce County has five Regional Growth Centers and two Manufacturing/Industrial Centers that have been adopted into the regional growth strategy. Pierce County Regional Growth Centers are located in Tacoma, which is a Metropolitan City, and in Lakewood and Puyallup, which are Core Cities.

Currently there are no designated Countywide Centers.

Manufacturing/Industrial Centers are areas where employee- or land-intensive uses will be located. These centers differ from Regional Growth Centers in that they consist of an extensive land base and the exclusion of non-manufacturing or manufacturing-supportive uses is an essential feature of their character. These areas are characterized by a significant amount of manufacturing, industrial,

and advanced technology employment uses. Large retail and non-related office uses are discouraged. Other than caretakers' residences, housing is prohibited within Manufacturing/Industrial Centers. However, these centers should be linked to high density housing areas by an efficient multimodal transportation system. The efficiency of rail and overland freight to markets is the critical element for manufacturers and industries located in these centers.

The designated Manufacturing/Industrial Centers, within Pierce County are as follows:

Manufacturing/Industrial Centers

Frederickson

Port of Tacoma

Within Pierce County, a limited number of additional centers may be designated through amendment of the Countywide Planning Policies consistent with the process below.

Designated centers may vary substantially in the number of households and jobs they contain today. The intent of the Countywide Planning Policies is that Regional Growth Centers become attractive places to live and work, while supporting efficient public services such as transit and being responsive to the local market for jobs and housing.

The Countywide Planning Policies establish target levels for housing and employment needed to achieve the benefit of a center. Some centers will reach these levels over the next twenty years, while for others the criteria set a path for growth over a longer term, providing capacity to accommodate growth beyond the twenty year horizon.

**County-Level Centers Designation Process**

The County and any municipality in the County that is planning to include a Metropolitan City Center, Regional Growth Center, Countywide Center or Manufacturing / Industrial Center within its boundaries shall specifically define the area of such center within its comprehensive plan. The comprehensive plan shall include policies aimed at focusing growth within the center and along corridors consistent with the applicable criteria contained within the Countywide Planning Policies. The County or municipality shall adopt regulations that reinforce the center's designation.

No more often than once every two years, the Pierce County Regional Council (PCRC) shall invite jurisdictions with centers already adopted in their comprehensive plan that seek to be designated as centers in the Countywide Planning Policies to submit a request for such designation. Said request shall be processed in accordance with established procedures for amending the Countywide Planning Policies.

Each jurisdiction seeking to have a center designated in the Countywide Planning Policies shall provide the PCRC with a report demonstrating that the proposed center meets the minimum criteria for designation together with a statement and map describing the center, its consistency with the applicable Countywide Planning Policies, and how adopted regulations will serve the center.

Transit services shall be defined in the broadest sense and shall include local and regional bus service, rail where appropriate, vanpool, carpool, and other transportation demand measures designed to reduce vehicle trips.

Pierce County Countywide Planning Policies. The “clean” language below assumes the proposed VISION 2040 Consistency amendments are ratified.

The minimum designation criteria to establish a candidate center by type are as follows:

Metropolitan City Center

Area: up to 1-1/2 square miles in size;

Capital Facilities: served by sanitary sewers;

Employment: a minimum of 25 employees per gross acre of non-residential lands with a minimum of 15,000 employees;

Population: a minimum of ten households per gross acre; and

Transit: serve as a focal point for regional and local transit services.

Regional Growth Center

Area: up to 1-1/2 square miles in size;

Capital Facilities: served by sanitary sewers;

Employment: a minimum of 2,000 employees;

Population: a minimum of seven households per gross acre; and

Transit: serve as a focal point for regional and local transit services.

Countywide Center

Area: up to one square mile in size;

Capital Facilities: served by sanitary sewers;

Employment: a minimum of 1,000 employees;

Population: a minimum of 6 households per gross acre; and

Transit: serve as a focal point for local transit services.

Manufacturing / Industrial Center

Capital Facilities: served by sanitary sewers;

Employment: a minimum of 7,500 jobs and/or 2,000 truck trips per day; and

Transportation: within one mile of a state or federal highway or national rail line.

The minimum criteria report and statement shall be reviewed by the Growth Management Coordinating Committee (GMCC) for consistency with Countywide Planning Policies, the Transportation Coordination Committee for consistency with transportation improvements plans of WSDOT, and with Pierce Transit’s comprehensive plan. The coordinating committees shall provide joint recommendation to the PCRC.

Once included in the Countywide Planning Policies, the jurisdiction where a center is located may go on to seek regional designation of the center from the Puget Sound Regional Council (PSRC) in accordance with its established criteria and process.

In order to be designated a Regional Growth Center the center should meet the regional criteria and requirements including those in VISION 2040, the regional growth, economic and transportation strategy as may be amended and designated by the Puget Sound Regional Council.

After county-level designation occurs within the Countywide Planning Policies and until regional-level designation by the PSRC occurs the center shall be considered a “candidate” Regional Growth Center.

Pierce County Countywide Planning Policies. The “clean” language below assumes the proposed VISION 2040 Consistency amendments are ratified.

Each jurisdiction which designates a Regional Growth Center shall establish 20-year household and employment growth targets for that Center. The expected range of targets will reflect the diversity of the various centers and allow communities to effectively plan for needed services. The target ranges not only set a policy for the level of growth envisioned for each center, but also for the timing and funding of infrastructure improvements. Reaching the target ranges will require careful planning of public investment and providing incentives for private investments.

Three candidate regional centers have been included into the Countywide Planning Policies. One of the candidate centers is a Regional Growth Center and two candidate centers are Manufacturing/Industrial Centers.

Some centers will reach these levels over the next twenty years, while for others the criteria set a path for growth over a longer term, providing capacity to accommodate growth beyond the twenty year horizon.

**County-Level Centers Designation Process**

The County and any municipality in the County that is planning to include a Metropolitan City Center, Regional Growth Center, Countywide Center or Manufacturing / Industrial Center within its boundaries shall specifically define the area of such center within its comprehensive plan. The comprehensive plan shall include policies aimed at focusing growth within the center and along corridors consistent with the applicable criteria contained within the Countywide Planning Policies. The County or municipality shall adopt regulations that reinforce the center's designation.

No more often than once every two years, the Pierce County Regional Council (PCRC) shall invite jurisdictions with centers already adopted in their comprehensive plan that seek to be designated as centers in the Countywide Planning Policies to submit a request for such designation. Said request shall be processed in accordance with established procedures for amending the Countywide Planning Policies.

Each jurisdiction seeking to have a center designated in the Countywide Planning Policies shall provide the PCRC with a report demonstrating that the proposed center meets the minimum criteria for designation together with a statement and map describing the center, its consistency with the applicable Countywide Planning Policies, and how adopted regulations will serve the center.

Transit services shall be defined in the broadest sense and shall include local and regional bus service, rail where appropriate, vanpool, carpool, and other transportation demand measures designed to reduce vehicle trips.

Pierce County Countywide Planning Policies. The “clean” language below assumes the proposed VISION 2040 Consistency amendments are ratified.

The minimum designation criteria to establish a candidate center by type are as follows:

Metropolitan City Center

Capital Facilities: served by sanitary sewers;

Employment: a minimum of 25 employees per gross acre of non-residential lands with a minimum of 15,000 employees;

Population: a minimum of ten households per gross acre; and

Transit: serve as a focal point for regional and local transit services.

Regional Growth Center

Area: up to 1-1/2 square miles in size;

Capital Facilities: served by sanitary sewers;

Employment: a minimum of 2,000 employees;

Population: a minimum of seven households per gross acre; and

Transit: serve as a focal point for regional and local transit services.

Countywide Center

Area: up to one square mile in size;

Capital Facilities: served by sanitary sewers;

Employment: a minimum of 1,000 employees;

Population: a minimum of 6 households per gross acre; and

Transit: serve as a focal point for local transit services.

Manufacturing / Industrial Center

Capital Facilities: served by sanitary sewers;

Employment: a minimum of 7,500 jobs and/or 2,000 truck trips per day; and

Transportation: within one mile of a state or federal highway or national rail line.

The minimum criteria report and statement shall be reviewed by the Growth Management Coordinating Committee (GMCC) for consistency with Countywide Planning Policies, the Transportation Coordination Committee for consistency with transportation improvements plans of WSDOT, and with Pierce Transit’s comprehensive plan. The coordinating committees shall provide joint recommendation to the PCRC.

Once included in the Countywide Planning Policies, the jurisdiction where a center is located may go on to seek regional designation of the center from the Puget Sound Regional Council (PSRC) in accordance with its established criteria and process.

In order to be designated a Regional Growth Center the center should meet the regional criteria and requirements including those in VISION 2040, the regional growth, economic and transportation strategy as may be amended and designated by the Puget Sound Regional Council.

After county-level designation occurs within the Countywide Planning Policies and until regional-level designation by the PSRC occurs the center shall be considered a “candidate” Regional Growth Center.

Pierce County Countywide Planning Policies. The “clean” language below assumes the proposed VISION 2040 Consistency amendments are ratified.

Each jurisdiction which designates a Regional Growth Center shall establish 20-year household and employment growth targets for that Center. The expected range of targets will reflect the diversity of the various centers and allow communities to effectively plan for needed services. The target ranges not only set a policy for the level of growth envisioned for each center, but also for the timing and funding of infrastructure improvements. Reaching the target ranges will require careful planning of public investment and providing incentives for private investments.

Proposed Amendment

to the

Pierce County Countywide Planning

to

Incorporate A New Candidate Regional Center

Pierce County Countywide Planning Policies. The “clean” language below assumes the proposed VISION 2040 Consistency amendments are ratified.

## **Centers**

Centers are to be areas of concentrated employment and/or housing within UGAs which serve as the hubs of transit and transportation systems. Centers and connecting corridors are integral to creating compact urban development that conserves resources and creates additional transportation, housing, and shopping choices. Centers are an important part of the regional strategy (VISION 2040) for urban growth and are required to be addressed in the Countywide Planning Policies. Centers will become focal points for growth within the county's UGA and will be areas where public investment is directed.

Centers are to:

- be priority locations for accommodating growth;
- strengthen existing development patterns;
- promote housing opportunities close to employment;
- support development of an extensive multimodal transportation system which reduces dependency on automobiles;
- reduce congestion and improve air quality; and
- maximize the benefit of public investment in infrastructure and services.

VISION 2040, the adopted regional growth strategy, identifies several centers as an integral feature for accommodating residential and employment growth. The strategy describes Regional Growth Centers, and other centers that may be designated through countywide processes or locally. Regional Growth Centers once regionally designated are located either in Metropolitan Cities, or in Core Cities. VISION 2040 also identifies Manufacturing/Industrial Centers, which consist primarily of manufacturing and industrial uses. Pierce County has five Regional Growth Centers and two Manufacturing/Industrial Centers that have been adopted into the regional growth strategy. Pierce County Regional Growth Centers are located in Tacoma, which is a Metropolitan City, and in Lakewood and Puyallup, which are Core Cities.

Currently there are no designated Countywide Centers.

Manufacturing/Industrial Centers are areas where employee- or land-intensive uses will be located. These centers differ from Regional Growth Centers in that they consist of an extensive land base and the exclusion of non-manufacturing or manufacturing-supportive uses is an essential feature of their character. These areas are characterized by a significant amount of manufacturing, industrial,

and advanced technology employment uses. Large retail and non-related office uses are discouraged. Other than caretakers' residences, housing is prohibited within Manufacturing/Industrial Centers. However, these centers should be linked to high density housing areas by an efficient multimodal transportation system. The efficiency of rail and overland freight to markets is the critical element for manufacturers and industries located in these centers.

The designated Manufacturing/Industrial Centers, within Pierce County are as follows:

Manufacturing/Industrial Centers

Frederickson

Port of Tacoma

Within Pierce County, a limited number of additional centers may be designated through amendment of the Countywide Planning Policies consistent with the process below.

Designated centers may vary substantially in the number of households and jobs they contain today. The intent of the Countywide Planning Policies is that Regional Growth Centers become attractive places to live and work, while supporting efficient public services such as transit and being responsive to the local market for jobs and housing.

The Countywide Planning Policies establish target levels for housing and employment needed to achieve the benefit of a center. Some centers will reach these levels over the next twenty years, while for others the criteria set a path for growth over a longer term, providing capacity to accommodate growth beyond the twenty year horizon.

**County-Level Centers Designation Process**
